Revised September 2008

Please inform all those that will serve on your team of the following:

The Island of Galveston currently has many safety and health issues. It is important that team members are in good health, have had a tetanus shot and are prepared to encounter heat, humidity, mold, excessive mosquitoes, long hours, physical labor and other conditions as detailed in the "Physical Wellness Form" and "The Statement of Agreement" enclosed in the Group Package.

They will be living in close quarters aboard ship in rooms with many other volunteers. Food may be of limited variety and may be repetitive. Conditions and schedules are continually subject to change. Flexibility, a willingness to do whatever is needed, a positive attitude and patience are key requirements for team members.

Work assignments that Disaster Relief Teams may be asked to do include:

- Food Service
- Organization and distribution of goods
- Home cleanup
- Installation of roof tarping
- Chain saw work
- Ship support (work aboard ship in food service, housekeeping and care for crew and volunteers)
- Site support (involves maintenance and cleaning of all outside areas of the base (including port-a-toilets))
- Setting up and breaking down the site, maintenance of power and equipment and Security

**** Prayer is incorporated into each aspect of the ministry. ****
